

Volha Shunko

Manual QA Tester — Web & Mobile

Gdańsk, Poland · ozoz@mail.ru · [LinkedIn](#) · [Portfolio: olgagelikrizium-crypto.github.io/qa-portfolio](https://portfolio.olgagelikrizium-crypto.github.io/qa-portfolio)

SUMMARY

Manual QA tester with hands-on experience on a live fintech website (QA internship) and **91 paid crowdtesting cycles on uTest across 47 products** — web, iOS and Android. Rated **Gold in Localization** and **Silver in Functional** testing on uTest. Economist by education with 10+ years of running a small business: precise with details, documents and data, and used to thinking about what a defect costs the business. Looking for a junior manual QA role in Tricity or remote.

EXPERIENCE

QA Engineer Trainee (internship) · ITX — Capital.com

Mar 2026 – present

- Functional, smoke, exploratory, regression and localization testing of the Capital.com production website across 6 regulatory licences (FCA, CySEC, ASIC, SCA, SCB, CMA) and 10+ language versions
- About **100 approved bug reports**; bug review, retesting and validation of fixes, checklist maintenance
- Found systemic defects: links routing users to another licence's site, anchor links failing on first click, untranslated and inconsistent content, 404 pages from the instrument catalogue
- Desktop and Android cross-browser checks; reports with screen-recorded evidence

Crowdtester · uTest / Applause

2026 – present

- **91 test cycles · 47 products · 138 reported issues · 17 executed test cases**
- uTest rating: Gold — Localization (90.9%), Silver — Functional (87.8%)
- Industries: hospitality, fintech & crypto, banking, luxury and fashion retail, home improvement, e-commerce payments (Apple Pay), restaurant booking, ticketing
- Exploratory, functional, payment-flow and localization testing on web, iOS and Android within strict cycle deadlines

Tester · Test IO

Mar – Apr 2026

- E-commerce search and filters (boundary values); AI generators in a web design tool: prompt constraints, input parsing, structure of generated output

Small Business Owner & Economist · Self-employed

10+ years

- Ran daily operations, planning and financial analysis of a small trade and sewing business
- Prepared documents and financial reports; responsible for data accuracy and quality control

SKILLS

Testing: exploratory, functional, regression, smoke, localization, usability, cross-browser and cross-device testing; test cases and checklists; boundary values and equivalence partitioning; bug reports with severity and priority

Tools: Chrome DevTools, Git/GitHub, VS Code, Postman (basic), Screaming Frog, screen recording

Tech: HTML, CSS, JavaScript basics; learning SQL, API testing and Jira

EDUCATION & CERTIFICATES

- **Bachelor of Economics (Marketing)** — International Institute of Management, Business and Law
- Intensive “Web Testing Program” — Vadim Ksendzov / Sandbox, 2026
- Software Testing Introduction — EPAM Campus, 2025 (100 h, passed with 92%)
- HTML Essentials, CSS Essentials, English for IT — Cisco Networking Academy, 2025; JavaScript Essentials — in progress
